

# DIDSBURY PIONEER

VOL. XXVII, No. 45.

DIDSBURY, ALBERTA, THURSDAY, NOVEMBER 6, 1930

\$2.00 per Year. 5 cents a copy

## Legion to Celebrate Armistice Day

The first public occasion under the auspices of the newly formed Canadian Legion will be the celebration of Armistice Day.

They are announcing a public supper, concert and dance to be held on Tuesday evening next.

The supper which will be held in the basement of the Knox church at 7 p.m. will be in charge of the Mons Chapter I. O. D. E.

The concert will be given in the Opera House at 9 p.m. A large array of visiting and local talent have promised to assist and an excellent program is assured. After the concert a dance will be held at which the Bellamy orchestra will supply the music.

The Legion hope that there will be a large attendance of the public and especially ask that all veterans and their families will attend.

## Reserve Fund Covers Chautauqua Deficit

Didsbury Chautauqua which was held last week was very successful from an entertainment standpoint. The quality of the programs were quite up to standard, and though the attendance was not quite so high as in former years, the hall was well-filled at each performance.

From a financial standpoint, it was not as successful. The fact that threshing was in full swing, no doubt, kept a large number of the farmers from attending, and the sale of season-tickets suffered in consequence. The reserve, which had accumulated in former years, however, was more than sufficient to cover the deficit.

The return of Chautauqua for next year is assured, as the lady-superintendent had no difficulty in obtaining sufficient signees to next year's contract.

## The Rosebud Hotel Changes Hands

On Saturday last, Mr. George Elder, of Innisfail, took charge of the Rosebud Hotel, having bought out Mrs. Harmer's interests.

Mr. Elder is a hotel-keeper of long experience, having conducted a hotel in Trochu from the time that town was established, until 1928, when he moved to Innisfail, where he has since conducted the hotel at that point.

Mr. Elder informs us that he will install electric refrigeration at once, and that he intends to make several other improvements to the premises.

## POPPY DAY

The public have, and will always be asked to support campaigns, either by subscription or tag days. All of these are worthy in the extreme, and of necessity in our public life. There is one, however, which overshadows all these in our national lives.

Armistice Day will soon be upon us, which is a day imprinted in the minds of all, not as being of "National" importance, but of "World-wide" importance. The extent to which this day when it occurred was lauded by people of every nationality, can't be measured, and the relief to the pent-up suffering of relatives anxiously concerned about the welfare of their own, will never be forgotten.

We owe Canada's 60,000 men who gave their lives, a solemn tribute as Canadians, and we should all bring this to attention once per year. November 11th is the day for this observance when the young nation of Canada will display its remembrance by wearing a poppy.

Every Canadian or citizen in this glorious land of ours is asked to wear the poppy which is emblematic of this tribute.

The local branch of the Canadian Legion will have a supply of poppies on hand and the sale of the same will be made on Saturday next.

## LOCAL & GENERAL

Special Armistice Day Service at Knox United Church next Sunday.

Kiddies! Don't forget Santa Claus at Builders Hardware.

During December all the stores will be open on Wednesday afternoon.

Mr. Stickney, of Westcott made a trip to the southern city on Monday.

Thanksgiving Services at Westerdale United Church, Sunday, Nov. 9th at 11 a.m.

Communion Service at Westcott United Church, Sunday, November 9th at 3 p.m.

Rev. A. E. Hayes was a visitor to Bowden and Innisfail this week, to head up the laymen's movement of the presbytery.

A series of dances will be held in the Didsbury Opera House, every Saturday night. Ladies, 25c. and Gents, 25c. Bellamy Orchestra. u.f.n.

Mr. T. Johnson motored to Rocky Mountain House on Tuesday. They say he took his gun with him and here's hoping he bagged his game.

With the resumption of threshing operations the trucks in the district are busier than they have been for many a day and elevators are working overtime.

Mr. J. W. McCarthy of Toronto, general sales manager for the Good-year tires and Mr. J. E. Murphy, Alberta agent of Calgary, called on their local agent W. A. Teskey on Thursday.

The ladies of Didsbury are good sports. Returning from the bridge party Tuesday night their car balked and as towing wasn't a success they got out and pushed it to the garage.

Kathleen Adshead, second daughter of Mr. and Mrs. C. Adshead was taken to the Didsbury hospital on Saturday and underwent an operation for appendicitis. We are pleased to report that she is progressing favorably.

Don't forget the Masquerade Ball under the auspices of Mons Chapter I. O. D. E., in the Opera House, on Friday, November 7th. Admission: 75c. each, lunch included. Costumes may be hired at the residence of Mrs. J. S. McCloy. Phone 80. 433c

On Friday, November 14th, a Laymen's Convention, in connection with the Red Deer Presbytery, will be held in Knox Church, Didsbury. There will be an afternoon session, supper, and an evening meeting. Several prominent laymen will be present. The object of the convention is to discuss frankly, the work of the church, and how best it can be carried on. Rev. A. E. Hayes is acting as chairman and convenor.

## Mountain View Bible School Hold Opening Exercises

The fifth annual opening of the Mountain View Bible School took place in the M. B. C. church, on October 28th and 29th. Friends from various communities were present, as well as a number of graduates of former years and a majority of the students who have registered for this year.

Five special services were held with Rev. J. K. Smith, secy. of the Foreign Bible Society of the Northern Auxiliary, as the main speaker. His messages were greatly appreciated. Addresses were likewise given by Rev. C. J. Hallman, Rev. H. Edwardson, Miss Maggie Finley and Mrs. M. A. Finley. These were all helpful, instructive and inspirational. The special singing of the convention was done by Mrs. J. Suder, Miss Sarah Zook and Miss Myra Herber.

On Thursday morning, October 30th, the students gathered for registration and for the opening chapel

service. Many were the expressions of joy among the returning students as they greeted old friends and sought to make the acquaintance of the more retiring new students.

The young people who plan to attend this year have not all arrived. However we expect that there shall be a slight increase in the registration over last year.

A new teacher in the person of Miss Louise Dagner from Tacoma, Washington, has been added to the faculty. She is a graduate of the Portland Bible Institute and is well equipped for the work in the institution. We extend to her a very hearty welcome.

Westerdale United Church, under the auspices of the Ladies' Aid, is holding a Chicken Supper at Westerdale, Monday, November 10th, from 6 to 8:30 p.m. An entertainment will be held in the evening. Adults 50c. Children 15c.

## WELL! WELL! WELL! Look! Boys and Girls

*Santa Claus Sent Us this Message:*

BUILDERS' HARDWARE STORES, DIDSBURY.

Tell all the boys and girls of Didsbury and district, that I will be at your store ALL DAY on SATURDAY, NOVEMBER 29th, and that I want to see every boy and girl in the whole district, as I have something for them. I received a lot of letters from the boys and girls of Didsbury, but there must be lots and lots of them who have not written yet.

(Signed) SANTA CLAUS.

Now, boys and girls, the BIG DAY will be SATURDAY, NOVEMBER 29th, so mark it right on the calendar, and tell "Daddy and Mamma" that you must go to town on that day, as Santa has something for you. Have you written your letter? If not, sit down tonight and write him a letter, and then bring, or send it to our store. We have a Santa Claus POST OFFICE right in our store, where you can mail your letter, and don't forget the date of "Santa's Party."

Oh yes, I nearly forgot to tell you that the TOYS ARE NOW HERE AND WILL BE OUT ON THE TABLES IN A FEW DAYS, and MY! what a bunch Santa sent this year and such Dandies. Everything, Dolls, "Goose that lays the golden eggs," Games, Books, AEROPLANES, TOPS, MARBLES, TRUCKS, TRACTORS, CARS, and Oh! just "OODLES OF THINGS," so be sure and come into our store in a few days, and see what he sent.

Tell Mamma and Daddy to bring the whole family, and see SANTA CLAUS on

### Attitudes Of Mind

It is reported in a daily newspaper that some doubt existing as to which side of the international boundary line between Canada and Maine a certain old lady's farm was located, surveyors were employed and the decision finally reached that it was on the United States side. "I'm so glad!" exclaimed the old lady, "Canadian winters are so severe."

Travelling from the United States to Canada on one occasion, the writer overheard a passenger remark just after the train had entered Canada: "The air is so much sweeter and purer now that we are back in Canada."

Climate to these people was an attitude of mind, but, nevertheless, very real. It leads one, however, to wonder whether many people do not approach many of their daily activities, not on a basis of actualities, but from some purely mental reaction.

On the day following the general election of July 28 last, a merchant in one of our Saskatchewan cities, a strong Conservative by the way, declared that his business had already greatly improved. He overlooked the fact that two fairly large conventions then in session in the city might have added somewhat to his day's sales. No, it was an attitude of mind with him,—business had improved over night because the Conservatives had won the election.

It is the same with many in respect to hard times. Some people whose salaries, or wages, or other sources of income, are the same now as they were in the boom days, or even greater, but whose cost of living is much less, due to lower commodity prices, "feel" harder up than many who actually suffer, they become terribly pessimistic and continually harp on the blue ruin aspect of things and how difficult they are finding it to make ends meet.

Without in the least discounting actual conditions, it is safe to say that with many people hard times is an attitude of mind, superinduced, maybe, by fear of the real thing, rather than the thing itself. Unfortunately there are many who are faced with truly hard times and have concrete problems to solve and difficulties to overcome, but there is a multitude of others who are no worse off today than they ever were but who "think" they are. They are largely responsible for cultivating and disseminating ideas that conditions are much worse than is actually the case.

The influence of mind over matter is a well authenticated and recognized fact. Records in doctors' offices contain scores and hundreds of cases of people who, having nothing the matter with them, imagined there was something wrong and by constantly and morbidly dwelling on their imagined ills actually did become chronic invalids.

There is, too, that state of mind wherein people develop suspicions of others without any cause or evidence to support such suspicions, but, having become suspicious of another, every word and act of such person, however simple and innocent, only serves to confirm and intensify the suspicions of the former.

Such attitudes of mind are to be deplored, and their cultivation to be guarded against by every individual. The harm done through constant thinking of unpleasant and evil things, and the harboring of thoughts of suspicion of others, or even of weaknesses in one's self, is almost incalculable. It spreads like a miasma through society polluting the life of whole communities.

Fortunately, the reverse of this is also true. The cultivation of clean, kindly and noble thoughts, the development of feelings of confidence in and goodwill towards one's neighbors, creation of the habit of looking at the bright rather than the dark side of things, also spreads through society and uplifts and brightens the lives of all persons with whom such a sane and happy individual comes in contact.

#### Jamaica Buys From Canada

##### Is Grateful For Tariff Preference On Fruits and Vegetables

Canada is getting all kinds of business that formerly went to the United States because of Jamaica's gratitude to Canada for recent tariff preferences, according to L. T. Kennedy, prominent business man of Kingston, Jamaica, who was a recent visitor in Montreal.

"We in Jamaica are very grateful to Canada for her preference in fruits and vegetables, and as a result, millions of dollars worth of business which formerly went to the United States is now being diverted to Canada. We buy a great deal of flour from you, among other things," he said.

A woman may be clever enough to do any work a man can do but the cleverest gets some man to do it for her.

A London bookseller has collected more than 400 editions of "Robinson Crusoe" in all languages.

#### Unemployment Relief

##### Separate Unit Of Labor Department Will Deal With Details

A separate unit will be established in the Labor Department to administer the details of the \$20,000,000 fund for dealing with unemployment relief. It will operate under the Minister of Labor who will have associated with him in the work the Minister of Railways and Minister of Public Works. Harry Hereford, of Ottawa, will be in charge of this unit with the title of Director of Unemployment Relief. He was formerly in the Labor Department as registrar under the Industrial Disputes Investigation Act.

##### Maple Sugar Industry

Production of maple syrup and maple sugar in Canada in 1930, had a value of \$5,250,620. Of this amount, 2,185,379 gallons of syrup accounted for \$3,869,197, and 8,208,276 pounds of sugar for \$1,381,513. The average price of the syrup was \$1.77 per gallon and of the sugar 17 cents a pound.

#### Wealthy For a Day

##### Girl Student From Copenhagen Enjoyed Herself In Berlin

Miss Maiken Borring, a student of medicine from Copenhagen, Denmark, experienced being a millionaire for a day in Berlin. She had won first prize in a contest sponsored by the Danish daily, "Politiken," which meant that she was permitted to spend one day in Berlin with all bills, no matter how high, paid by the paper.

There was one condition, however, Miss Borring was not allowed to acquire anything which might be of value to her after her role of millionaire expired.

She therefore found the task of spending money somewhat difficult. A visit to Prof. Albert Einstein, an airplane spin, a drive about town in a costly limousine, sumptuous meals at the most expensive Berlin restaurants and attendance at a theatre comprised her day's "extravagances."

### Pale People Are In Peril

#### Some Form Of Nervous Breakdown Always Threatens Them

Pale people are almost always nervous. Paleness denotes lack of blood and too little blood usually results in jaded nerves, sleeplessness, headaches or neuralgia.

Dr. Williams' Pink Pills are different from most other medicines—it is impossible to take them and not feel better. Their whole mission is to make rich, red blood. This new blood strengthens the nerves and gives vitality to the whole body. Concerning them Mrs. G. Cook, Bloor Street, Toronto, says: "Two years ago I used Dr. Williams' Pink Pills for a nervous breakdown with the result that I have been well and strong ever since."

You can get these Pills from any dealer in medicine or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Canada Playing Valuable Part

##### Vancouver Expert Will Lay Rails For Bermuda's First Railway

Canada will play a valuable part in the construction of Bermuda's first railway, which is hoped will be completed within a year or so. Louis McDonald, of Vancouver, expert in road beds and track laying, has gone to Bermuda aboard the C.N. steamer "Lady Somers," after engaging ten men in Montreal to follow him later to Bermuda. The Vancouver expert has been 35 years in the business of rail laying. He served under General J. W. Stewart in the 12th Railway Troops during the world war and is now working with Belfour, Beatty and Co., London, England, builders of the new railroad.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy, Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

#### His Nightly Message

This often repeated nightly message which his chauffeur delivered to Sir J. Bickerstaffe was on the latter's funeral wreath: "The fire's dying out; the water is nice and hot; the windows and doors are bolted; the house traps are set and there are no mice. Good-night, Sir John."

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

#### Parachute For 'Plane

A parachute for an aeroplane, designed by Dr. J. T. Parr, a dentist of Oakland, California, is released by pressing a control lever. This opens a trap-door in the upper wing and the parachute is shot out. The 'chute swings the 'plane and pilot slowly to earth, and has a landing speed of about 15 miles an hour.

Minard's Liniment has a hundred uses.

W. N. U. 1859

### When a Laxative Gripes --- BEWARE!

Severe abdominal pains, griping, after taking a laxative is an indication of unnatural strain that may cause serious injury.

No laxative that causes such discomfort is safe, or necessary. ENO is pleasant, gentle, safe and sure.

A daily dash of ENO'S "Fruit Salt" in a glass of water, night or morning, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

**ENO'S  
"FRUIT SALT"**

#### Newest In Machines

To learn what and how much you should eat simply drop a coin in a new slot machine, which was shown at the International Hygiene exhibition at Dresden, Germany. The machine weighs you, measures your height and then delivers a card outlining your diet, showing the natures of the food and the number of calories you should consume daily.

Americans spend approximately \$1,000,000 a day for ice cream.

#### New Building For C.N. Exhibition

Another permanent building is to be erected for the Canadian National Exhibition, Toronto, at a cost of \$1,000,000. The buildings already erected in exhibition park are valued at over \$20,000,000. The new building will be used for exhibiting horses and cattle.

Recent photographs of the planets add evidence to the belief that Mars, Jupiter, and Venus have an atmosphere, as the earth has.

## Canadian Aviation History Is Made When Bird Men Travel 20,000 Miles Over Arctic Area

When two seaplanes soared down to a safe landing on the Ottawa River recently, it marked the end of possibly the most outstanding flight in Canadian aviation history. For the past two months the 'planes had traversed the frozen wastes of the far north. In that time, they travelled 20,000 miles, mapped a small empire of virgin territory and made mineralogical and topographical surveys of many parts of Canada's hinterland.

Yet it was all in the day's work for the men who made the trip. With a mere shrug of the shoulder and the terse comment, "Why, it was nothing!" they, who had written such an important chapter in Canadian exploration and aviation history, dismissed the whole matter. Flight-Lieut. F. J. Mawdesley was in charge of the detachment and piloted one of the machines. Flight-Sergeant H. J. Winny handled the other 'plane, while the survey and photographic work was in charge of C. S. Macdonald, of the Department of the Interior, an experienced Arctic traveller. Sergeant S. C. Dearaway was the mechanic and camera operator.

The trip took the two 'planes as far west as Akavik, on the Mackenzie River, and as far east as Repulse Bay, an inlet on the extreme northerly portion of Hudson Bay. Chesterfield Inlet and Churchill were two of the intermediate points touched which are familiar. A total of 2,800 photographs were taken, representing thousands of square miles of territory never before mapped or surveyed. In addition to this work, the caches of gasoline and oil, maintained in this mechanized age for exploration work in the north, were inspected. Suitable air routes were mapped and the river bottoms charted. This latter work was undertaken to determine, if possible, the economic possibilities of the country.

The party made numerous tests of aeronautical equipment and, among other things, discovered a device for counteracting the effects of the magnetic pole. Previously it had been reported that the proximity of the magnetic pole influenced the compass needle, making it sluggish and, in some instances, utterly destroying its usefulness. Equipped with a British periodic compass, neither 'plane experienced any difficulty in navigating within the pole region.

### Mink Shipped From Yukon

Five Hundred Sent To Sweden and United States Points

Five hundred dark, damp, little noses pressed entreatingly against strong wire bars, and five hundred little mouths screechingly crying disgust at being caged, signified the arrival at Vancouver of the steamship "Princess Louise" from Alaska, with the largest shipment of mink to ever pass through British Columbia. Raised in captivity by George Simmons, of Carcross, Yukon Territory, the fur-bearers were en route to Gothenburg, Sweden, with a few for United States points, where they will either serve milady's wardrobe or be distributed for the nucleus of mink farms in and around those territories.

### Wheat Situation Sound

Canada's wheat situation, both as to marketing and prospective price, and also as to the wheat-growing future, fundamentally is such as to discourage pessimism. That is the verdict of B. P. Alley, assistant-general manager of the Canadian bank's?fla.R Bank of Commerce, in charge of the bank's business in Western Canada.

"Have you serious intentions to that girl you are always with?" "Yes, to get rid of her as soon as possible."—Aitt for Alla, Stockholm.

W. N. U. 1859

### Dairy Cattle Capture Prize

Eighteen Head From C.P.R. Strathmore Farms Win Awards At Spokane

Eighteen head of dairy cattle from the Canadian Pacific Supply Farm at Strathmore, carried off sixteen firsts and ten second prizes as well as all the championship ribbons at the Washington Inter-State Livestock Exhibition at Spokane recently, according to E. Ward Jones, superintendent of the railway's department of agriculture and animal industry. Included in the awards won by the Strathmore herd were the male and female grand championships, senior and junior female championships and the junior male championship.

(By Eva A. Tingey).

### SCHOOLGIRL CHIC

All Tingey models are created and sketched in Paris and the patterns are made in New York.

For wear in school here is a charming style. If, however, it is not school wear which is required other materials will render the model suitable for various occasions.

For instance for afternoon velvet would be a most attractive material with white or some other contrast against the frock for collar and cuffs. For very smart wear a wee collar and cuffs of metal tissue can be worn.

With woollens and washing materials like challis or gingham, collar and cuffs can be of pique, linen or washing silk according to the type of the frock. If the dress is developed in crepe-de-chine or taffeta, lace for the collar and cuffs is charming and a rather wider, self sash instead of the belt to knot at the back.

This pattern may be obtained in sizes 8 to 14. It is ready for immediate delivery. It is hand cut.

Sent 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

### How To Order Patterns

Although the water in the Arctic and Antarctic oceans is salty, the ice that forms is free from salinity.

### Shipment Under Empire Marketing Board Scheme

British Columbia Receives Consignment Of Pure Bred Livestock

The B.C. Provincial Department of Agriculture received word recently from Agent-General F. A. Pauline in London, England, that the first shipment of pure bred live stock to be shipped to British Columbia under the Empire Marketing Board scheme via the Panama Canal had left the Old Country for Vancouver. The shipment consisted of 23 rams and ewes for breeders on Vancouver Island and the lower mainland, and a Red Poll Bull for H. E. Waby, of Enderby, president of the Canadian Red Poll Breeders' Association. The Dominion Government has established a quarantine station for live stock at Vancouver, which was ready when the shipment arrived at the end of September.

Special interest attaches to a part of this shipment of sheep as it comprises the first group of Kerry Hill sheep ever to come to Canada. These animals have been brought out as an experiment by Chas. Eccleston, Victoria, and come from the flocks on Lord Ralfe's Brogyntyn estate at Oswestry, Shropshire, England. His brother, Bert Eccleston, is shepherd there, but formerly resided in B.C., and believes that these sheep will stand the Canadian climate well.

### Extraction May Be Costly

Germans Find Extracting Beryllium From Beryl Hardly Pays

Canadian technical experts professed themselves as being unaware of any special report for the Imperial conference on the beryl deposits near Winnipeg in Manitoba. On behalf of the mines branch of the Canadian government there had been inquiries into the possibilities of extraction of beryllium—which is used in light metal alloys—from the Manitoba beryl, it was stated.

Experiments by a German concern, however, had tended to show the cost of extraction of beryllium from beryl was very high in comparison with the result obtained and the Germans were now turning to lithium for light alloy, it was pointed out. The Canadian officials are watching the German experiments closely, for lithium occurs in greater frequency in Manitoba than does beryl.

### Real Drive Against Weeds

The sow thistle, twitch grass and other troublesome weeds, the roots of which have been turned to the full strength of the sun, will have no vitality left to reestablish them another year. More early ploughing of sod and after harvest cultivation than usual have been accomplished this year. Even without a word from the weed inspector, farmers are making a real drive against weeds.—Farmers' Advocate.

Although tea was grown in China as early as the sixth century, it was not heard of in Europe for another thousand years.

"Influence, my boy, is what you think you have till you try to use it."

### THREE RECORD BREAKERS

Three heifers that have made dairying history in Alberta are shown above. They are, right to left: Mona Pontiac Walker, Rose Echo Warwick and Laura Fremona, and between them they produced 77,460 pounds of milk and 2,902 pounds of butter in the year, respectively, to last June, last May and last April. This averages out to 25,820 pounds of milk which beats the highest record made by a four-year-old in Canada in 1929 by 2,000 pounds, while the average dairy cow in Alberta produces less than 4,000 pounds. They are the property of the Canadian Pacific Railway at the company's experimental farm at Strathmore. The first two are four-year-olds, and the last is a

three-year-old. They were bred on an average Ontario farm, all sired by the same bull and each purchased by the Canadian Pacific when under eighteen months of age. Production, according to E. W. Jones, superintendent of Agriculture and Animal Industry for the railway, is very largely a question of proper development and handling. These three cows produced in one year more than nineteen average Alberta dairy cows. To do it, they were well fed and given good care during the lactation period, but up until freshening were developed outside where in winter months they were given good roughage but very little grain.

## Wide Discrepancy Exists In Estimates of Amount of Russian Wheat Exported To Britain

### Winter Feeding Of Bees

Entire Supply Is Given Them At One Time

One of the strangest things to the ordinary individual is that the feeding of bees for the winter differs from that of other live stock in that the bees are given their whole winter supply of food at one time, while other stock receive their rations day by day. Toward the end of September, the bees should receive sufficient food to tide them over the fall, the winter and the spring until the warm days come and they can gather nectar.

Some beekeepers feed their bees sugar syrup; others give them natural stores—honey. When natural stores are given, the food chamber method is usually employed. To get an idea of what the food chamber is, let us look at a hive and we will see that it is built up like a large building,—storey by storey. The lower or ground storey is called the brood chamber and it is here that the queen reigns. The storeys above this are the ones in which the honey is placed by the bees.

As the first honey brought in at the beginning of the main flow is considered the best, and as the bees, which are sometimes confined to the hive without the chance of a cleansing flight for close on 22 weeks, must have the best, this honey is set aside for them. This storey or box full of honey is called the food chamber.—Experimental Farms Note.

### Skim Milk For Hens

Tests Show It Gives Better Results Than Beef Scraps

In tests carried on for five winter seasons, November to February inclusive, Barred Rocks receiving skim-milk laid more eggs and gained more weight than eggs and getting beef scrap, reports G. A. Langelier, of Cap Rouge, Experimental Station. On the basis of the experiment, beef scrap is worth nine times as much as skim-milk, weight for weight, so that at the usual valuation of skim-milk at 20 cents per 100 pounds, beef scrap would only be worth \$36 per ton.

"That skim-milk may furnish all the protein required, 100 layers should get from 12 to 14 quarts per day," Mr. Langelier estimates. "If this can be spared for the poultry, care should be taken that it be given always sweet or always sour, to prevent digestive troubles, and that it does not freeze."

Soviet Russia is purchasing 100 carloads of combine harvesters.

Production of window glass has just been introduced into Mexico.

Suburban theatres in Australia are installing talkie equipment.

A wide discrepancy exists to estimates available in London, England, of the amount of Russian wheat exported to Great Britain this season.

In Liverpool, centre of the grain trade, it was stated that only 620,000 quarters or about 150,000 tons, all of fairly good quality, have been received at ports of the United Kingdom from Russia between Jan. 1 and Sept. 27.

Estimates of British traders and official observers in London, fixed the figure roughly at 450,000 tons for United Kingdom ports in July, August and September.

The difficulty of fixing figures of Russia's export wheat trade and of her exportable surplus is admitted because the Soviet government trading agencies are dealing independently with various grain concerns and there is no central place to obtain actual totals.

Russian officials here have no authority to disclose grain shipment figures, even if they were available. The problem of checking wheat exports is likely to be simplified soon. Arrangements are being made to keep a tally at Istanbul of all Russian grain shipments from the Black Sea, whence all substantial cargoes pass.

According to figures available in London, heavy wheat shipments from Russia began in July. During that month 28,000 tons of wheat were estimated to have arrived in British ports. Heavy consignments began to arrive early in August, and during August and the first half of September grain cargoes from Russia amounted to 400,000 tons.

It is estimated that about 15,000 tons are on the way to United Kingdom ports and an additional 26,000 tons en route to continental Europe. Besides these amounts it is believed in grain circles that nearly 100,000 tons, which already have been sold, now await shipment from Russia.

\$100,000,000 worth of goods from the United States last year and \$20,000,000 worth from Great Britain. These bills are falling due and must be met and the great stores on the shores of the Black Sea constitute the Soviet's most easily convertible asset. This despite the fact that Russia's domestic demands for wheat may not justify selling abroad.

There is an idea in some quarters that decreases in other Russian exports, such as timber, may be forcing the Soviet Government to take a chance of selling foodstuffs which may be needed later. For example, as a part of the five-year programme of development, Russia originally planned to send 750,000 standards of timber to the British market. This figure is not actually expected to pass the 600,000 mark and the Soviet planners face this deficiency in some other exportable product.

Trade officials in London are watching the wheat situation closely. One opinion expressed was that a great deal of forcing down of prices and propaganda to force prices down has been done by traders and others who are opposed to the operation of the Canadian wheat pool, the United States farm board and the proposed Argentine wheat pool.

An idea of the amount of Russian wheat shipped during pre-war years can be had from the fact that between 1909 and 1913 some world wheat shipments were: Russia, 4,750,000 tons annually; the United States, 3,250,000, and Canada, 3,000,000 tons.

Appendicitis caused more than 18,000 deaths in the United States in 1928.

The gent who tries to beat the "Limited" to the crossing is the one who puts the auto into autopsy.

"Suppose we fell in the water now?"

J. E. GOODER, Editor &amp; Manager

**WATCH THE ADS**

Good News for Hard Times May be Gleaned by Reading Local Ads

Those who are checking closely these days on all household purchases cannot fail to note that there is a downward trend among many classes of staples. Contrary to belief, wheat is not the only commodity which is dropping in price. One local merchant reports that in checking over his price list, during the last few months 95 per cent of the changes in price have been downward changes. In many instances the retailer is the loser, because he has already bought his stock, but he must submit to the prevailing price, and takes his cut accordingly.

The drop per pound or per article may be a matter only of a few cents per article or a cent per lb., but in the total of business is mounts up to a substantial sum.

At present the tendency of general commodities is downward and it will pay the careful shopper to study the advertisements and to take advantage of the bargains which are offered.

**A LABORATORY OF MORALS**

It is said that parents and teachers are finding it more and more difficult to instill good morals and teach ethics to the modern children in our school-rooms. Many differences of opinion exist as to whose special duty it is to instruct the young in the way they should go.

Some parents would have it that the teacher must include it in the curriculum. The overworked and hard-pressed teacher of a heavy one-room school of all grades, turns round and asks what's the matter with the present-day home, and why does not father stand up to his job as in the good old days of the slipper.

Churches of every faith come in for their share of criticism, and are accused of having left undone the things they ought to have done. Meantime the Junior Delinquency courts fill up and the magistrates are faced with crimes perpetrated by criminals of very tender years. It is all a very difficult problem, and one welcomes any light whatsoever on the dark place of our educational system.

In turning over a report of a congress of Moral Education held at Geneva some years ago, one observes that one of the speakers was the President of Vassar College, New York, H. N. McCracken. His subject was the new educational gospel of learning by doing, training the will and the emotions along with the memory and the reason. He enlarged on group

**LOCAL & GENERAL**

Monday being Thanksgiving Day, all the stores will be closed.

Kiddies! Santa Claus will be at the Builders Hardware Saturday, November 29th.

Mr. W. Sutherland, of Penoka, was visiting his friends here over the week-end.

Mr. Murray Palmer, of the North End Lumber Yard, spent the week-end with his sister at Lethbridge.

Mr. and Mrs. C. Bellamy and family, together with their visitors, made a trip to Elnora on Sunday.

Messrs Frank and Paul Seibert, of Plumer, Idaho, are visiting Mr. and Mrs. C. Bellamy, and other relatives here this week.

The Melvin Go-Getters will hold a dance at Melvin School Friday evening, November 7th. Bellamy's orchestra.

Mr. W. A. Miles who has been visiting here for a few weeks, returned to Sioux City Iowa on Friday.

A class from the Olds School of Agriculture, visited the Norman Clarke farm last week and spent an afternoon judging his herd of pure bred Jerseys.

Mr. H. O. Tonjum entertained at a dinner-party on Wednesday evening, in honor of the Lowell Patton Artists. Dr. and Mrs. Palmer, of Munson, were also guests.

Badminton is the latest game to be played in Didsbury. A few of the boys have arranged for the use of a room in the school, where they will play. The first practice was held on Tuesday evening.

Mrs. E. G. Ranton, and Mrs. W. J. McCoy, attended the masquerade ball at Carstairs, Hallowe'en night, and brought home the prize for the best comic costume for lady and gentleman. They represented *Jack and Samantha Allen*.

The teachers of Didsbury Public School will attend the convention of teachers of the local inspectorate, being held today (Thursday) and tomorrow (Friday) at the Old-School of Agriculture. Mr. Ross Ford is president of the convention. The Didsbury primary teachers are making an exhibit of primary seat work at the convention.

Coming! "The Songster Brigade" of the Calgary Salvation Army will visit the Evangelical Church on Sunday evening, November 16th. The brigade consists of about thirty members, who major in gospel song but will be accompanied by a number of hand-men with their instruments. This visit was expected for Thanksgiving Sunday, but had to be postponed owing to unavoidable reasons.

The children of the Public School held a Hallowe'en party on Friday afternoon. A large number of the scholars went to school in costumes, and the line-up of witches, ghosts, goblins, etc., when the school-bell rang, made a colorful scene. Hallowe'en games were played, and the kiddies got lots of enjoyment out of the party. The following were prize-winners for the best costumes: Grades 5 to 8: Florence Chamberlain and Murray Calthness. Grades 1 to 4: Marjorie Waldron and Don Mortimer.

enterprise and the extending of contacts beyond the school to the community and to mankind, also on associating for mutual aid.

Six hundred teachers were present to listen to the findings of President H. N. McCracken, and in discussion on ethics and morals they all agreed that often the lessons fell on stony ground.

"Make moral education practical" was the keynote of these students of child psychology. In response the speaker explained in detail that the Junior Red Cross is a laboratory of morals.

There, children learn the highest citizenship through practical ways of work, in line with the best educational thought of the day.

Address all correspondence to The Superintendent of Junior Red Cross, 407 Civic Block, Edmonton.

**Town Planning  
In Alberta**

Article 10.

Town Planning Commissions.

Some of the duties of the Provincial Town and Rural Planning Advisory Board, are:

To co-operate with any local or rural authority in formulating and carrying into effect, any official town plan, or any planning scheme; and to promote in any community, a pride in the amenities of its neighborhood.

The Board feels that it can best assist by encouraging the appointment of Town Planning Commissions in cities and towns, and in some instances, also in villages. Where several authorities are concerned, a "Regional Planning Commission" may be appointed.

Experience shows us that town-planning can best be carried on, where there is a Town Planning Commission with which the Provincial Board and Provincial Director are both able and glad to co-operate.

A year ago in the United States, there were over seven hundred and fifty communities interested in planning; over six hundred and fifty had official planning commissions. In Canada, there are already a considerable number of commissions in the various provinces, with a dozen or more in Ontario, several in Saskatchewan, and in Vancouver and other municipalities in British Columbia. In Alberta, there are now fourteen commissions. Other municipalities have named commissions, but they have not yet been officially appointed.

Further information may be obtained by writing to the Director of Town Planning, Parliament Buildings, Edmonton.

**HOW DIVIDED**

In Charles Peterson's book on "Wheat, the Riddle of Markets," he gives the distribution of prices on a pound of bread. These figures cover a two-year average, and show the percentage going to everyone on the final purchase of a loaf of bread. The producer of wheat gets 13.4 per cent., the country elevator gets 0.79 per cent., the transportation and terminal wheat agencies 3.25 per cent., flour miller 4.75 per cent., the transportation agencies for flour 3.08 per cent., wholesale baker 59.77 per cent., retail grocer 14.96 per cent.

These are figures from the editor of the Farm and Ranch Review, Calgary, and corroborated by the U. S. Federal Trade Commissioner.

**CARE OF MACHINERY**

Thousands of dollars are wasted annually through leaving farm machinery and equipment out in the open, and breakdowns at critical periods always prove expensive. It costs very little, around \$150, to provide an adequate, if rough, shelter for binders, reed drills, threshers, tractors, combines, mowers, etc., most of which are idle about 46 weeks in the year. All that is necessary is a shed that will keep rain, snow and sun from the equipment. The saving in depreciation alone will more than offset the cost in the first year. The farmer who has his machinery housed has a much better chance to repair it during the winter time and with only 170 working days between the spring thaw and freeze-up keeping farm machinery at maximum efficiency is really important.

Possibility of Ghandi having reached the zenith of his power in India was voiced by Lt.-Gen. Sir George Cory, former deputy chief of General Staff, India, who sailed aboard S. S. Duchess of Richmond for Liverpool recently. "Time will very likely cure India of her ills, as it has done before," was Sir George's view.

The hunting grounds of eastern Canada abound with big game and with wild fowl of every description as a result of wise game laws and conservation measures of the various provinces, according to A. O. Seymour, general tourist agent, Canadian Pacific Railway, who announces that opportunities for hunters in Quebec, Ontario and the Maritime Provinces were never better than in the present season.

Hon. C. A. Dunning, formerly minister of Finance in the King Administration, has accepted the position of vice-president and general manager of "Lucerne in Quebec," and will enter upon his new duties at once. The appointment was made public recently by E. W. Beatty, as president of that organization. Directors of "Lucerne in Quebec" make this announcement with a great deal of satisfaction, said Mr. Beatty, in view of Mr. Dunning's achievements in Canadian affairs and his outstanding personal character.

Angus Hodgson, well known Montreal big game hunter, back in that city from Banff and the Canadian Rockies, reports that he shot one moose, one elk, one black bear, two deer and two Rocky Mountain goats. He almost added a grizzly to this total which however got away after a six day chase. "Why on earth more Canadians do not go to Banff for their hunting beats me," Mr. Hodgson declared, adding that cost was reasonable and big game abounded there.

Unveiling of the memorial to Bliss Carman, noted Canadian poet, took place at Fredericton recently and was broadcast all over the Dominion by Canadian Pacific radio network. Sir George Foster, well known Canadian statesman, spoke, expressing the sentiments of all Canadians in regretting the loss of the great national bard.

A French-Canadian wedding of a hundred years ago was one of the high lights of Quebec's third Folk Dance, Folk Song and Handicrafts Festival which was given at the Chateau Frontenac in that City October 16-18. Dances of Old and New France and of the Metis from the prairie provinces were among the other features of the festival which was conceded to have been the most successful of the many produced under the auspices of the Canadian Pacific Railway.

The Nova Scotia apple crop from the Annapolis Valley is now valued at \$3,000,000 and the significance of this figure will be realized when it is recalled that the return from last year's crop was approximately \$1,000,000. Growers affirm there never was a better year in the history of the industry than the present.

## WHY FAT MEN STAY FAT

"The trouble with me, and I guess this applies to 99 out of every 100 men who are putting on weight, I didn't have the energy or 'pep' to keep it off. Lost all interest in any healthy activity and just lazed around accumulating the old pounds, until I got that 'Kruschen feeling.'"

Start taking Kruschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape, and fill you with vigor and tireless energy.

As a result, instead of phanting yourself in an easy chair every free moment and letting flabby fat accumulate, you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.

Kruschen Salts are the up-to-date Fountain of Youth. Take one-half teaspoon in a glass of hot water to-morrow morning and every morning—be careful of the foods you eat—take regular moderate exercise—then watch the pounds slide off.

## WORLD HAPPENINGS BRIEFLY TOLD

Alex. Chisholm, prospector and veteran of the "trail of '98," is dead at Smithers, B.C., at the age of 70.

Wireless telegraph service has been established between Buenos Aires and Chilean cities and with Spain.

The \$100,000,000 Canadian government bond issue floated in the New York market October 7, was heavily over-subscribed.

Assembly of the League of Nations stood in silence several moments on the occasion of the first anniversary of the death of Gustav Stresemann, German post-war foreign minister.

The eleventh assembly of the League of Nations adjourned Oct. 4, after wrestling earnestly for three and a half weeks with pressing world problems.

Reports published abroad that trouble had arisen aboard the British battle cruiser "Revenge," anchored in Golfe Juan harbor, Nice, France, were denied by authoritative sources.

A number of delegates attending the Canadian Automobile Association convention at Vancouver endorsed the proposed highway through British Columbia to Alaska, in addresses made at the annual banquet.

The London Times editorially said that Russian dumping of grain on European markets was "clearly due first and foremost to desperate need of the Soviet Government for credits to finance their five-year industrialization plan."

The Department of National Defence announces that Major D. R. Sargent has been promoted to the rank of lieutenant-colonel and to command the 2nd Battalion, the Scottish Regiment. The regimental headquarters are at Nanaimo, B.C.

**The Oil Of Power.**—It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

### Daily Air Service

A daily air service between Lethbridge, Calgary and Edmonton, Alberta, a distance of 320 miles, has recently been inaugurated. This new service connects with the air mail service from Calgary to Winnipeg.

## IS ELECTED PRESIDENT

Walter Ashfield, Editor Of the Grenfell Sun

## Weekly Newspaper Publishers Meet

Fourteenth Annual Convention Of Canadian Weekly Newspaper Association, Saskatchewan Division

At their fourteenth annual convention held at the Saskatchewan Hotel, Regina, the Canadian Weekly Newspaper Association (Sask. Division), elected Walter Ashfield, Editor of the Grenfell Sun, as president for the ensuing term.

H. G. Sheldrake of North Battleford, the retiring president, was chosen as honorary president; A. King, Rouleau, vice-president; S. J. Dornan, Alameda, secretary-treasurer; while the following were elected to the executive: S. N. Wynn, Yorkton; E. P. Hodgins, Vanguard; J. J. Zubick, Kerrobert; J. Scott, Whitewood; H. Berryman, Blaine Lake.

Several instructive addresses were given during the sessions. Mr. T. A. McInnis, of the Bureau of Publications, gave an interesting talk, and Hon. J. F. Bryant spoke on the subject of Saskatchewan's Resources. The members of the association were the guests of the Saskatchewan Government at a banquet on Thursday evening, Oct. 2. Following the banquet an informal dance, sponsored by the Toronto Type Foundry Co., was greatly enjoyed. At noon on Friday, Oct. 3, the members were tendered a luncheon by the Saskatchewan Wheat Pool, and on Friday evening the Weekly Newspaper Association banquet was held at which the newly-elected president presided. It was decided to hold the 1931 convention at Regina.

## Expansion Of Dye Industry

Discovery Of Synthetic Dyes Has Been Wonderful Help

In the dyestuffs industry there was what may be called the Wood epoch of dyes which lasted until little more than half a century ago. The colors used in textiles and many other industries were natural products coming from plants or animals or minerals. It is an old story with a modern lesson that the scientific curiosity of Perkins, an Englishman, led to the building up, from the waste products of the distillation of coal, of artificial dyes more brilliant than Tyrian purple, more lasting than saffron and indigo, and without limit in their shades and tones. The discovery of pure research, led, although not in this country, to the founding of an industry invaluable to world not only for its primary output but also from the circumstances that it has required, created, and supported an army of research chemists. The labors of these men enabled Germany not only to secure almost a monopoly of the production of dyestuffs, but also to take the lead in the discovery and marketing of synthetic drugs, and, in the hour of her need, to thwart the endeavors of the Allies to deprive her of munitions of war. — The London Times.

### Saskatchewan Wheat Pool

Nomination papers for the annual election of Saskatchewan Wheat Pool delegates are being mailed out from the Head Office at Regina. Nominations will be accepted up to 6 p.m. on Tuesday, November 4. As soon as possible after the closing of nominations, ballots will be mailed out to all Wheat Pool contract-signers in the sub-districts where two or more candidates have been nominated. The closing date of the election has been set for Tuesday, December 2.

## Perfect dyeing so easily done!

DIAMOND DYES contain the highest quality anilines money can buy! That's why they give such true, bright, new colors to dresses, drapes, lingerie.

The anilines in Diamond Dyes make them so easy to use. No spotting or streaking. Just clear, even colors, that hold through wear and washing.

Diamond Dyes never give things that re-dyed look. They are just 15c at all drug stores. When perfect dyeing costs no more—is so easy—why experiment with make-shifts?

**Diamond Dyes**  
Highest Quality for 50 Years

## A Huge Undertaking

Building Of Sydney Bridge In Australia Requires Much Skill

The central arch of Sydney Bridge in Australia has been closed and it is expected that 18 months will elapse before the bridge is open for traffic. Construction by the British firm of Dorman, Long & Co., it is the largest arch bridge in the world. The contract price was £4,217,721, but the total cost will probably exceed £6,000,000. There were provisions throwing on the New South Wales Government the extra cost due to rises in wages, which have been large.

In planning the bridge it had to be considered that more than half the total traffic of Sydney, the chief port in Australasia, had to pass under it. The bridge had to give headroom and clearance to big ocean liners. The central arch is a single span of 1,650 feet, and there is a clear headroom for shipping of 170 feet at low water. The top of the arch is 440 feet above the water, exactly the same height as the highest point on Hampstead Heath, and 75 feet higher than St. Paul's Cathedral. With its approaches the bridge is 3,770 feet long. The total width of the deck of the bridge is 160 feet. It carries four lines of electric railway. In addition to a 57-foot roadway and two footways. There are 37,000 tons of steel in the arch construction and 13,000 tons in the approaches or a total of 50,000.

**Persian Balm**—the delight of dainty femininity. Imparts a fragrant charm to the complexion. Tones up the skin and makes it velvety soft in texture. Cooling, refreshing, it is delightful to use. Never leaves a vestige of stickiness. Invaluable for hands, face, and as a hair fixative. Wonderfully soothing and protective. Especially recommended in cases of roughness or chafing caused by weather conditions.

## Catering To Visitors

Windermere, England, Bans Sunday Civic Sports To Boost Scenery

To boost its scenery and also give city employees a holiday, Windermere, England, has decided that all municipal tennis courts, putting greens and golf courses be closed on Sunday. Those in favor of sports on Sunday afternoons said that records showed that the clergymen and residents of Windermere used to watch football being played after church on Sunday, but the city council decided that visitors should go to Windermere for scenery and solitude.

Athletes recommend Minard's Liniment.

### Immigration Returns

During the first four months of the current fiscal year, 58,273 immigrants were admitted to Canada as compared with 94,214 for the similar period of 1929. Those from the British Isles numbered 19,317 and from the United States, 12,075, while 11,109 came from Northern Europe.

## Left Problem Unsolved

Britain's Foremost Physicians Cannot Tell What Causes Seasickness

"Drink whiskey," "Don't drink whiskey," "Smoke strong cigars," "Don't smoke at all," "Eat five good hearty meals a day," "Restrict yourself to very light meals," "Get plenty of exercise," "Lie around and take things easy," "Eat all your meals in the dining saloon," "Take your meals on the deck if you feel queasy," and a dozen other remedies for seasickness were discussed by 100 of Great Britain's foremost physicians and surgeons before they sailed for home on the Canadian Pacific liner "Duchess of Richmond."

The diversity of opinions was so great that before the 20,000-ton liner sailed the medical party had divided itself into two schools of thought. One prominent Irish surgeon told interviewers that a similar discussion had taken place when they departed from England. "If that subject had been on the agenda at the British Medical Association meeting in Winnipeg, the discussion would still be going on," he said, "and not one of us could have offered a constructive suggestion."

"Sea-sickness is a mental condition," another well-known Harley Street physician opined, "if you make up your mind that you are not going to be and you won't be." Which sentiment might have got by had not a colleague chipped in with the remark: "Then you must have made up your mind to be sick on the way to Canada, Doctor." And silence descended.

By the time the last whistle blew, five minutes before the "Duchess of Richmond" cast off her hawsers, one conclusion was reached and the 100 doctors agreed as one man what their course would be if overtaken by the malady.

Collectively they agreed that the proper practice would be to call in the ship's doctor. "He knows more about it than we do."

## Good Recipes

Smoothness Of Texture In Recipes That Call For Milk and Sugar

Do you ever have difficulty in getting a smoothness of texture in recipes that call for milk and sugar? Good recipes obtain wonderful flavor and consistency through the use of Eagle Brand Sweetened Condensed Milk. The milk and sugar are thoroughly combined (almost pre-cooked you might say) so that results are obtainable that could not be expected if you mixed the sugar and milk yourself. Having the milk and sugar already blended is a great advantage. Aside from saving sugar—and the trouble of mixing—there is the certainty of a finer flavor to the dish. The condensed milk combines quickly and easily with all other ingredients—binds them closer together—and gives the recipe a smoother texture. Another advantage of condensed milk is its convenience. One can keep several cans on hand as it keeps perfectly, so there is no such thing as running short, but rather a certainty of pure, fresh milk whenever it is required.

As a vermifuge an effective preparation is Mother Graves' Worm Expeller, and it can be given to the most delicate child without fear of injury to the constitution.

### Marvellous Yield Of Oats

Alert to the possibilities of "Marvellous" oats, William White, farmer of the Alert district, southeast of Biggar, Sask., has reaped a marvellous yield. From an experiment plot of four and a third acres, he threshed 121 bushels to the acre. The oats weighed 42 pounds to the bushel. The land was new breaking on an old pasture field. Neighbors threshed the grain, measured the plot and verified the yield.

### Plenty Of Wheat

George Kabel, 67-year-old Illinois farmer, estimates that he has threshed enough wheat during the past 60 years to make 118,320,000 loaves of bread. His average has been 30,000 bushels a year.

### Prayer Was Answered

Farmer Jim Garnett, of Coolidge, Kansas, spent most of the summer praying for rain—then it rained so hard he had to use a rowboat to harvest his Kaffir corn.

Minard's Liniment For Chest Congestion.

## QUALITY

Made of pure materials in modern sunlit factories. No expense spared to have it clean, wholesome and full flavored.

## WRIGLEY'S

## STOPS COUGHS

## Flaky Pie Crust

The secret of making good pie crust is: "Use Purity Flour—and keep the dough dry!" Try this recipe—for 2 shells:

3 cups Purity Flour 1 cup lard  
35 teaspoon salt 1 cup cold water.  
METHOD: Mix the flour and salt, cutting in half the shortening until the mixture is like fine meal, gradually adding exact quantity of water but not a drop more. Use less water, if you can, and the pie crust will be even flakier.  
Turn out on board very lightly sprinkled with Purity Flour, roll about 1/4-inch thick. Spread balance of shortening over dough, fold over three times and roll again to required thickness. Bake in hot oven (450°).

Send 30c for Purity Flour Cook Book.

Western Canada Flour Mills Co. Limited, Toronto Winnipeg, Calgary.

## PURITY FLOUR

## Immediate Relief for INDIGESTION

WHAT most people call indigestion is usually excess acid in the stomach. Food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention, it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume

in acid. The results are immediate with no harmful after-effects.

Once you learn this perfect way you'll never deal in any other manner with the headaches, gas, bloating, nausea, dizziness, indigestion, biliousness, etc., due to an over-acid stomach and bowels.

Be sure to get genuine Phillips'. It is always a liquid; never made in tablet form. Look for the name Phillips on the bottle. All drug stores—50c.

### CHAPTER II.—Continued.

"Do you know," he broke in practically on this sober reverie, "I'm almost famished. No" (as she turned a surprised face to him), "don't say it. I know it's only eleven-thirty. I know it's not time to eat; and I don't care. Thunder! Gay, I've lived all my life by rules. I hate 'em. From now on, unless you make a nice tame house-cat of me, we'll eat when we're hungry; that is," he added, grinning, "it we can arrange to be hungry at the same time!"

"Otherwise," smiled Gay, her fears vanishing before his carefree grin, "I infer that we'll eat when you're hungry."

Nick laughed, but refused to answer this awkward question. Instead he said, stopping the car: "Here's a brook and a pine tree, so near that we can easily keep an eye upon the flivver, though no self-respecting tramp would consider stealing it. Say! you don't mind eating early, do you?"

The girl laughed at this tardy return to manners.

"What am I, to decree when I shall eat, if my lord and master . . ."

"Gosh!" Nick interrupted fervently. He raised awed eyes to heaven. "She calls me her lord and master! But" (with a sudden dropping to earth), "you can cut out that line of talk, Gay. It's mediaeval. Call me 'the boss,' if you must; but not your lord and master. I'm at home in jumpers, but I'd look a fool with an ostrich feather in my cap."

"I'm not so sure of that," Gay contradicted, regarding his clear-cut profile critically. "One of those three-cornered hats, you know, with a plume resting on your shoulder. . . ."

"Glory!" gasped Nick, staring at her. "Have you lost your mind, Gay? Come on; let's eat. It's lucky you brought along that lunch."

To her surprise Gay found that she was hungry. They devoured Miss Sadie Twitchell's chicken, with all the greed of childhood days. Indeed, after feasting on the drumsticks, Nick was obliged to wash in the convenient brook.

"Clean?" he questioned, turning a dripping countenance upon her; and Gay, laughing, dried his face on a paper napkin. But when he suggested

wading, and confessed a yearning to build a dam, she hesitated.

"The water's like ice, Nick; and besides . . ."

She was thinking that they were still some miles from that place where one procured a license and got married, "all in an hour"; but Nick sighed resignedly, and for a moment his face clouded.

"When I planned this trip, Gay," he explained, "I vowed I'd do every darn thing that came into my head; yet I begin—"

"You begin," she interrupted, a little catch in her voice, "you begin by asking a girl to marry you. I suppose that just 'came into your head,' but it changed—everything. Oh, Nick, I don't want it to change things! I want all your dreams to come true. Build that dam if you want to terribly, and—wade. I'll wade with you. I'd really like it, Nick. I—"

In her contrition she was pulling at his shoestrings, but he caught her hands, holding them with gentle firmness.

"Why, Gay?" His voice was tender. "I believe you're almost crying. What a dear goose you are! And why should it matter if things are a little different than I planned? Don't you know that I love having you along?"

"Really, truly, Nick?"

She lifted a sweet, flushed face, and he smiled into her eyes.

"Really, truly, Gay?" He bent to her, then straightened up abruptly.

"And you were right to squelch my kid desire for wading. There's something better ahead of us today."

He gave her hands a reassuring squeeze, and lifting the empty basket, threw it with careful aim into the car.

"Let's be off," he said, with all the enthusiasm she could desire. "I refuse to speed. I want to enjoy everything we see. By three o'clock we should reach State Line, and then . . ."

He gave her a comical glance; a curious blending of affection and amusement, as if he were not yet quite ready to be serious about the future.

This was Nick's great adventure, thought the girl tenderly—his quest for the freedom he had never known. Not by word or look must she dim his happiness. She wondered, as mile after mile slipped by and he showed no sign of the nervousness she felt herself, if he realized the enormity of the step they were about to take. Only once did he mention it, and then to quote laughingly when a tire went flat: "Needles and pins, needles and pins, when a man marries. . . . You see Gay, what you've brought me to. But for you I'd be on my trusty feet." Yet he whistled cheerfully as he worked, and said, as they started on their way: "We're a half hour late at the goal, my dear, but why worry, so long as we're together?"

But it was after four o'clock when they drew up before a shabby wooden building which flaunted a sign reading: "Josiah K. Miller, Justice of the Peace."

Nick stopped the car, but for a minute he did not stir. He sat there, arms folded, looking straight ahead, till Gay said gently: "Nick, it—it's

not too late now if—if you want to

"Back out?" smiled Nick. He faced her, and something in his eyes made her heart race. "I don't desert my bride at the altar, Gay." He grinned. "Doesn't look much like an altar, does it?"

His eyes were raised to the window below which hung the sign. Then, before she could speak, he was out of the car, giving a little brush to his clothes as if in a desire to appear well on this occasion.

"I'll just run up and see if this is right, though I believe the town clerk usually perches near a Justice in these Gretna Greens. I never got a marriage license before, Gay, and it may take time. If I'm longer than you expect, don't worry. I shan't go back on you! My dear girl, you look solemn as a funeral. Cheer up—the worst is yet to come!"

He turned away, then hesitating at the dingy doorway, came back to say: "Of course you know, Gay, that I was only trying to brace you up? There isn't going to be any 'worst' about it, either for you or me."

It seemed to Gay, waiting nervously outside, that he was a long time gone; yet when she saw him coming, she felt, with womanly inconsistency, a sense of panic. The street was almost deserted of passers-by, but he came near and spoke softly.

"I've got the license, and the Justice is waiting for us. I—"

"Nick," broke in the girl suddenly, "couldn't we go to—a minister?"

He laid a comforting hand on hers.

"I'm afraid not, dear. There's been a lot of publicity lately about underage couples getting married here. You look about fifteen, Gay, and I'm no Methusalem! The parsons have been forced to shut down on these hasty weddings—that is, they won't do it without some sort of investigation. And we haven't time for that, though I hate like thunder to ask you to come up here."

"Is—is it an awful place?"

Nick smiled.

"I haven't seen it. The town clerk offered to act as witness and tell the Justice we were here. Come, dear. We mustn't keep him waiting."

Gay stepped onto the sidewalk, glancing down with apprehension at her dusty shoes.

"Do I look a sight?"

"You look all right to me, Gay, and that's all that matters." Then, with a sudden understanding of her mood, he added: "You look great! I bet that town clerk will expire of envy!"

So it was with a laugh that they started up those dingy stairs that were to lead them they knew not where. The echo of that laughter was on their lips when Nick opened the door bearing the name of Josiah K. Miller; but it died at their first glimpse of the room beyond. It was, thought Gay, with a sense of suffocation so much worse than she'd expected! The dust of the stairs and hallways seemed to penetrate the very

"Do Not Hesitate to Try It"

"Your Vegetable Compound is a good medicine. Anyone who is in poor health should not hesitate to try it. When I was taking the Vegetable Compound I tried the sample Liver Pills I found in the package. I have taken them every night since and I can feel myself improving. I am so thankful for the good they do me that I have told several women about it."—Mrs. G. W. Posliff, 263 Huron St., Stratford, Ontario.

Lydia E. Pinkham's Vegetable Compound

Small text at the bottom of the advertisement.

## Her Three Children Troubled With Diarrhoea

Mrs. Leo Lapointe, Laurier, Man., writes:—"My three youngest children were very bad with diarrhoea. I tried all kinds of remedies, until a kind old lady told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle right away and started giving it to them, and the next day the diarrhoea had stopped altogether. Now I will know what to do when any of my children are troubled that way again."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

## Remarkable Crops

### Good Yields Of Grain Reported In Lloydminster Area

Some remarkable crops have been gathered in the Lloydminster area this year, running from 40 to 50 bushels to the acre in the case of wheat, and from 90 to 100 bushels in the case of oats. There has also been quite an active sale of farming machinery this year, one machinery agent stating that he had sold more threshing outfits this fall than during the past three seasons.

atmosphere, Josiah K. Miller, his beard stained profusely by tobacco, slouched in a chair behind a roll-top desk. The town clerk, a dapper little man wearing a red necktie, stood by the window, whistling, with strange cheer, the Miserere from Il Trovatore. Before a typewriter sat a slovenly, gum-chewing girl, who yawned widely at Gay's approach, and removing the gum stuck it on a corner of the table; while the town clerk, with a smirk that struck terror to Gay's heart, remarked jocosely: "Ah, here's the bride!"

He hummed lightly a bar or two from Lohengrin.

Gay's hand went to her throat, as if to stifle the revolt that choked her. She couldn't be married here. She threw an appealing glance at Nick, but he was speaking to that dreadful man behind the desk. Loathing the whole scene she lowered her eyes, only to behold a tin spittoon as evidently in need of attention as was Josiah K. Miller's beard. It was too horrible!

Then something steadied her. She glanced up to meet the benign gaze of Abraham Lincoln, looking down from a steel engraving above a dirty marble mantel. She thought (and laughed of herself later), "If Lincoln can stand it, I guess I can!" Then she felt Nick's hand upon her arm, and the Justice, slouching to his feet, began to speak.

(To Be Continued)

## KEEP THEM HAPPY BY KEEPING THEM WELL

It is natural for children to be happy, active and full of fun. When they are fretful, fussy and disinclined to play you may be sure something is wrong. Almost invariably that something lies in the digestive tract.

It is to meet the need for an absolutely safe corrective of childhood ailments that Baby's Own Tablets have been designed. They gently regulate the stomach and bowels and thus drive out constipation and indigestion; break up colds and simple fevers and allay teething pains. Concerning them Mrs. W. E. Forsyth, Dover, N.B., writes:—"I would not be without Baby's Own Tablets as I know of nothing to equal them for fretful, fussy babies who are troubled with colds or sour stomach."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Radium Ore Discovery

### Deposits In Ontario May Yield Sufficient To Supply the British Empire

Belief that there are deposits of radium ore near Wilberforce, in Haliburton County, Ont., capable of supplying the needs of Canada, and possibly of the whole Empire, is expressed by Dr. G. E. Richards, head of the enlarged X-ray department of Toronto General Hospital. Dr. Richards is director of a company interested in the project.

He asserted that investigations over a period of three or four years had uncovered an apparently extensive deposit which averaged 186 milligrammes of radium per ton of ore treated, a higher average than in the radium-bearing ore of the Belgian Congo, at present the world's chief source of supply.

Douglas' Egyptian Liniment is recommended for sore necks, galls, distemper, callouses and spavins. Removes proud flesh and Hoof Rot. Stops bleeding instantly.

## A Curious Coincidence

It is an interesting historical fact, that although the Duchess of York is a daughter of a Scottish peer, she has a considerable amount of English blood in her veins, as her surname—Bowes—indicates, and, curiously enough, she is herself descended from the first Duke of York there ever was—Edmund of Langley, a son of King Edward III.

Minard's Liniment aids tired feet.

## DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a belching, from sour and acid stomach? Many believe they have heart trouble and tremble with fear, expecting any minute to drop dead. This condition can be prevented, likewise relieved.

Take Carter's Little Liver Pills after meals and neutralize the gases. Sweeten the sour and acid stomach, relieve the gas and encourage digestion. The stomach, liver and bowels will be cleansed of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c pkg. of Carter's Little Liver Pills.

## Little Helps For This Week

"God is our God for ever and ever; He will be our Guide even unto death."—Psalm xlviii. 14.

Thy way, not mine, O Lord, However dark it be, Lead me by Thine own hand, Choose out the path for me. Not mine, not mine the choice In things, or great, or small, Be thou my guide, my strength, My wisdom, and my all. —Horatius Bonar.

We want a guide who knows us, whether we be self-willed and over-confident, or despondent and over-sensitive, or worldly and aspiring. We want a guide who knows our frame and pities us, is not vexed with our ignorance or mistakes, but is tender towards us and patient. We want a guide who values character, and knows how to train while He guides; who guides for the purpose of training, sometimes into very hard paths, but profitable for the soul.

—Theodore Dwight Woolsey.

## WHEN CHILDREN FRET

THERE are times when a child is too fretful or feverish to be sung to sleep. There are some pains a mother cannot pat away. But there's quick comfort in Castoria!

For diarrhea, and other infantile ills, give this pure vegetable preparation. Whenever coated tongues tell of constipation; whenever there's any sign of sluggishness. Castoria has a good taste; children love to take it. Buy the genuine—with Chas. H. Fletcher's signature on wrapper.

Kiddies! Look for the Builders Hardware Santa Claus advt.

Mrs. Dr. Bouck, of Calgary visited with Mrs. Teskey on Monday.

Mr. and Mrs. Teskey were visitors at the Branscombe home, at Olds on Sunday.

Mr. W. D. Archer, went to Calgary on Monday, where he purchased a car load of feeder cattle.

Several members of the Didsbury Rebekah lodge, attended the district meeting of the order which was held at Crossfield on Wednesday evening.

The nurses of the Didsbury hospital entertained their friends at the nurses home on Tuesday and Wednesday evenings.

Mrs. A. C. Fisher entertained at a bridge party on Monday evening. There were six tables of lady bridge players. The prize winners were, 1st Mrs. Fluery and 2nd Mrs. Axtell.

Mr. E. R. Erskin, of Bently and Mr. S. G. Cadman, of Lacomb visited the Clarke Jersey farm on Monday and selected three head of mature cows.

The local fire boys attended to a fire alarm without any fuss on Wednesday evening last week. The alarm was brought to the boys at the opera where they were attending the Chautauqua. They quietly left the hall, got out the fire wagon and went to the South Livery Barn where a truck had caught fire and got back without any one attending the Chautauqua being any the wiser. Good work boys.

### Burnside Notes

Burnside U.F.A. are putting on a dance on November 14th.

The novelty dance put on by Lone Pine W.I. last Friday night, was well-attended and much enjoyed.

Messrs. Lew and Albert Thoman, of Kitchener, Ontario, spent the week-end with their brother, David Thoman and family.

Miss Kathleen Pross returned to her home here last week, after spending the fall with Mrs. Munro Findlay, of Olds.

Miss Martha Keim, of Acme, has been spending a week with her sister, Mrs. Dave Kreuzler, on the Greer place.

Lone Pine W.I. will meet at the home of Mrs. W. G. Dick, on Thursday, November 13th, when Mrs. James McCulloch will take the topic, "Home Economics."

Don't forget the debate to be held at the next U.F.A. meeting on the 10th November. The topic is, "Resolved that the present finishing examinations is not a fair basis of promotion." Everyone is urged to come with some idea to express, and all are cordially invited to help in the debate.

Word has been received of the death at his home in Silver Stream, Saskatchewan, of Mr. Jack Baptist, a former resident of Didsbury, and also of Sunnyslope. The late Mr. Baptist was twice married, his first wife being Miss Rachel Littler, of Teeswater, Ontario, who was well-known and beloved in this district. He is survived by two children, Lottie, now Mrs. Earl Gilchrist, of Saskatoon, and Bert, of Peachland, B.C., also a widow and two step-daughters. One brother, Alex, resides at Sunnyslope, and two other brothers, Will and George, along with three sisters, at Teeswater, Ontario. He was fifty-nine years of age, and will be remembered by all the old-timers in the district.

### Mountain View Notes

The W.I. is holding a whist drive and bazaar in the Hall on Friday, November 28th. There will also be a short program.

Mrs. Haynes, and Mrs. S. Tighe will entertain the W.I. in the Hall at the November meeting. Mrs. B. Atkinson will give a paper on "Education and Better Schools."

There will be a five-days' sewing course held in Community Hall, November 12th-17th. Anyone in the community is invited to attend these classes. For particulars, apply to Mrs. M. E. Wood, secretary.

## WEDDINGS

### DAVIES—FILE

A very pretty wedding of much interest to a wide circle of friends in this district, took place in the home of Mr. and Mrs. Harry Siebel last Monday evening, when Olga, the youngest daughter of Mr. and Mrs. George File, became the bride of Herschel Davies, son of Mrs. D. Irwin, all of Didsbury. Rev. H. E. Roppel performed the ceremony.

The bride entered the wedding-parlor on the arm of her father, and looked charming in a white duchess satin dress, carrying a bouquet of white roses. She was attended by Miss Elsie Shantz as bridesmaid, and little Winnie Moon as flower-girl. The groom was assisted by Mr. J. J. Morash, of Carstairs.

Immediately after the ceremony, the happy couple were showered with congratulations and best wishes for a long, happy, and prosperous wedded life. After a delightful buffet-lunch, all the guests viewed the numerous wedding-gifts as they were being opened by the bride and groom.

About seventy-five guests were in attendance. For the time being, Mr. and Mrs. Davies will make their home with the bride's parents.

### BORN:

To Mr. and Mrs. E. Hayes, on Tuesday, November 4th, a daughter.
